

Conservation Fund Transfer

Applicant: Conservation Commission

Project Cost: \$25,000

CPA Funding Requested: \$25,000

- ❖ The Conservation Commission controls approximately 400 acres of Town-owned land which is managed for conservation purposes (habitat value, flood control, etc.). They would like to be in a position to add parcels of high conservation value to that portfolio.
- ❖ Canton's long-standing Conservation Fund can be used to purchase open space when it comes on the market without having to obtain Town Meeting approval. The Fund has a current balance of \$159K.
- ❖ Any funds transferred from CPA to the Conservation Fund may only be spent on CPA-eligible uses.

CCPC Vote: Recommend Funding Full CPA Request of \$25,000
